

Sponsorship

“How does the child sponsoring works”

update 08/2011

[Foundation Cahaya Impian MasaDepan](#)

EDUCATIONAL AND SOCIAL PROJECT

Yayasan Cahaya Impian Masa Depan

The inability to gain higher education limits these children's future opportunities and therefore quality of life. Yayasan Cahaya Impian Masa Depan gives these under-privileged children the opportunity to continue their education.

How does the child sponsoring works:

- Unless otherwise mentioned, all of the children belong to families acknowledged as "keluarga miskin" (= poor family)
- The meaning is that the sponsoring will take place until senior high school (SMU), for higher education, we leave the choice to the sponsor to decide whether he/she will continue with the sponsoring or not.
- After finishing school, the foundation, will accompany the child to find a decent job or start-up a small business.
- We follow up on each sponsor child personally
- We offer individual study opportunities for children with learning problems
- Extra lessons if needed
- Extra programmes and lessons for all children to attend, such as English, computer and Balinese Heritage.

The sponsor:

- As a sponsor, you will receive:
 - a complete description about the situation of the family from the child (except classified information)
 - an overview from the school costs of that year
 - a financial plan for the next years
- As a sponsor, we will inform you completely about:
 - the account and costs
 - regularly you will receive information about the school results and evolution from your sponsor child
- At the beginning of the sponsoring, you as the sponsor can decide whether the sponsoring starts from the moment you decide to sponsor or from the beginning of the school year (July)
- If the sponsor decides to end the sponsoring, the foundation temporarily will take over the sponsoring until a new sponsor is found
- You can keep in contact with your sponsor child by e-mail (in English)
- Whenever you have questions or remarks, you are welcome to contact us: info@yayasancimd.org

The sponsor child:

- After the selection of the child, there will be a period, in which the child will learn about the intentions of the foundation,
 - introduction in budget planning
 - the importance of education and the costs
 - the importance of saving money
 - and step by step the child will learn to take his/her own decisions
- The sponsor child becomes responsible for himself / herself and after this period, the child will be able to control his/her own budget (under supervision of the Foundation)
- The sponsor child follows a program organized by the foundation, which includes:
 - lessons in English
 - lessons in computer and Internet
 - Balinese Culture (dance, singing, gamelan, etc)
 - hygiene and environment
 - general knowledge
 - the possibility to study “one-to-one” (private tutor)

The amount off sponsoring:

- The amount off sponsoring is 20 Euro a month
- 15 Euro will go to the sponsor child and 5 Euro to the educational program. With these 5 Euro we pay the school costs for sponsor children without a sponsor and the educational program for all the children in the community.
- The funds will be used to pay for the school costs, including:
 - registration
 - uniform
 - schoolbooks and exercise books
 - transport to and from the school
 - extra lessons (in school)
- If there is a need to recalculate the amount of sponsoring, this will be done in cooperation with the sponsor.
- The sponsor child will receive the FULL AMOUNT of sponsoring (minus exchange and bank costs), the foundation will neither charge administration costs nor any other costs, also the parents or family will have no access to this money
- The amount of sponsoring will go, if possible, to an account at the name of the child (under supervision off the foundation)
