

# Yayasan Cahaya Impian Masa Depan

## **Educational File:**

### The situation of Bali's Children

Attending school in Indonesia is still not a common situation. Without sponsorship, most children of the lower socio-economic group can only afford to complete Elementary School (SD), and occasionally Junior High School (SMP). Senior High School (SMU) and Tertiary Education are as good as impossible. The inability to gain higher education limits these children's future opportunities and therefore quality of life.

### How can we change this situation?

Yayasan Cahaya Impian Masa Depan gives these under-privileged children the opportunity to continue their education.

For the selected children we seek personal sponsors. With your yearly sponsorship these children can build up a budget, enough to pay for all their school fees to complete Senior High School.

We do understand that it is difficult to find a personal sponsor for all children involved, and so offer an alternative avenue for your donations. We have set up a fund to sponsor groups of children to attend school. The size of the fund determines the number of children within the group.

With this fund we:

1. Pay for the costs of the child before they receive personal sponsorship
2. Pay for the uniforms and schoolbooks for our Kuta group sponsoring project.
3. Repatriate children of 12-14 years, who have come to Kuta in search of work, back to their villages and give them hope for a better future.
4. Send gifted children to specialised and more expensive schools.
5. Continue education to the tertiary level for gifted and motivated children.

### But we also do more!

- We follow up on each child personally
- We offer individual study opportunities for children with learning problems
- Extra lessons if needed
- Extra programmes and lessons for all children to attend, such as English, computer and Balinese Heritage.

Our most important aim is to give the children of Bali a chance for a decent education and a better future.

Because the schools independently decide their annual fees, it is difficult to give a clear view of the total costs involved.

School costs in rupiah for our projects for 2008-2009:

	uniform	building	bemo per year	books 1 <sup>e</sup> trim	books 2 <sup>e</sup> trim	extra payments	map BP/BK	OSIS	computer lesson	exercise books	extra books	divers	pmi ppti	atlas	total
1 <sup>e</sup> year junior high school SMP Culik project Amed	238.000	80.000	850.000	62.000	61.500	0	0	0	0	40.000	5.000	0	0	0	1.346.500
